

The fastest way to flavour

Get your hob hotter, faster with the 300 Induction Hob. With no gas to ignite or coils to pre-heat, cooking zones reaches high temperatures quickly, so water boils faster than ever. And it responds instantly when you lower the heat, giving you total control.

Product Benefits & Features

Easy, fast and safe - Induction

Induction technology means that heat is delivered quickly and to precisely the right spot, meaning the surrounding areas remain cool and safe. It also reacts instantly to temperature changes. And the smooth surface makes it easy to clean.

Hob2Hood® for pure convenience

The Hob2Hood® function wirelessly connects your hob to your hood. Start cooking, and the hood will automatically adjust the settings, providing the best extraction based on the power selected on the hob. It does the hard work for you.

This induction hob runs great even on a Limited Power supply

Thankfully your induction hob will keep running at its best, even if you only have a Limited Power supply available.

Direct Access, immediate control

The Direct Access controls let you instantly adjust heat settings on your hob. You only need to tap once to set the temperature. For instant, effortless hob control.

Intense heat, in an instant with PowerBoost

Activate the PowerBoost function for an instant burst of heat during cooking. It's ideal for getting dishes ready faster. You can boil water quicker than ever before, and get pans ready for searing when you need them.
